

SICILY

In November 2017 I spent an incredible week in Nicosia, Sicily. We were able to see how the real mozzarella is produced and also we had an opportunity to taste it. The same thing was with pasta and olive oil. One day we drove to the capital of Sicily, Palermo. We spent there whole day and I can honestly say it was the best day of exchange. We saw some historical places and at the free time we hang out by the sea, eating pizza and real gelato. In my opinion that was the day because everyone integrated with each others the most. The other great opportunity that this exchange gave me was seeing how Italian families live. My host family was very hospitable and kind. We spent a lots of time together, they even take me to the volleyball match of the time from Nicosia. Of course everyday we were eating something from Italian cuisine which is probably one of my favorite. I really like the fact that we were hanging out together, the whole group even at nights so we could get to know each other better. After that exchange I have new friends from Italy and Czech Republic with which I am in contact till these day. I hope one day we will see each other again.
